2016 - 2017 SCHOOL YEAR

Thank you for your interest in Red Hill Lutheran School. Founded in 1961, Red Hill Lutheran School proudly celebrates its 55th year in operation for students in Preschool through Grade 8 (Preschool Enrollment packet is also available). Our enrollment is strong and continues to steadily increase as a result of God's many blessings. Solid academics integrated with Biblical truths and principles are taught from a Christian perspective by highly qualified, committed, professional educators. In addition, we offer a safe, positive learning environment for all students, a variety of extracurricular activities, and progressive instructional tools and methodologies. We believe in a multi-sensory approach to learning and therefore offer hands-on, engaging lessons in all subject areas. All lessons are presented to meet the needs of auditory, visual, and kinesthetic learners.

“ All students are blessed with unique gifts, talents, and abilities...”

Our school is an outreach ministry of Red Hill Lutheran Church, and our primary objective is to provide a Christ-centered, well-balanced education that promotes academic, spiritual, social, physical, and creative development.

We implement high academic standards with challenging curriculum that exceeds the California Common Core Standards. These standards are utilized by all teachers as a framework for academic achievement and are reviewed annually in order to maintain academic rigor. We provide comprehensive curriculum for Mathematics, Language Arts, Science, Social Studies and Bible as well as the "Meet the Masters" Fine Arts program. In 2015, we received a full 6 year renewal of our dual accreditation with National Lutheran School Accreditation and Western Association of Schools and Colleges.

We are selective in our admissions process in an effort to provide a safe and loving Christ-centered environment where all students have the opportunity to grow and succeed. With full capacity expected in many grade levels, we encourage you to review the enclosed information with prayerful consideration.

Lessons are taught using a multi-sensory approach, which appeals to auditory, visual and kinesthetic learners. This multi-sensory style of teaching provides students with an opportunity to develop important 21st Century skills such as critical thinking, communication, collaboration, and creativity, all while emphasizing exploration and application to real-life experiences. Curriculum and lessons encourage students to read, write, speak, and listen at a high level across all content area. All subjects are taught from a Christian perspective and integrated with Biblical truths and principles.

PHYSICAL EDUCATION

The physical education program is committed to fostering skill development, healthy lifestyles, and spiritual growth through group games and activities that emphasize cooperation, teamwork, and leadership skills. All physical education lessons are based on California State Standards.

COMPUTER SCIENCE

Technology is used to enhance learning across all subject areas, both in the classroom and in the computer lab. Grade level teachers collaborate with the computer teacher to provide computer instruction that is focused on current classroom learning. Kindergarten through 2nd grade students have the opportunity to use iPods to practice reading fluency and addition facts. Grades 3-5 have a class set of Chromebooks that are often used in

conjunction with Google Docs to facilitate the writing process through production of rough drafts, peer and teacher editing, as well as publishing the final document. iPads are used by all middle school students to access textbooks, take notes, and make presentations through the use of Apple TV. Our campus-wide wireless network and Internet access are safely controlled.

MUSIC

Music is important to the developing mind. Students in grades K-5 will develop an appreciation of music through song and musical instruments such as recorders, ukuleles, violins, clarinets, flutes, and trumpets. Middle School students may also choose to enroll in Handbells, Concert Band, or Praise Band as elective courses.

VISUAL AND PERFORMING ARTS

The California Department of Education includes Visual and Performing Arts as a vital part of a well-rounded educational program. Combined with Music, our Performing Arts Program provides students with an opportunity to study the arts discipline through artistic perception and appreciation, creative expression, and historical and cultural context. Fine Arts will be emphasized through the "Meet the Masters" Art Program.

SPANISH

Spanish is offered to all students in K-5 twice a week and to Middle School students as an elective. This class is taught through auditory, visual and hands-on activities and includes a study of Spanish culture as well as language.
